

Central Reducer with Cover

The product with code T00711413, described as CENTRAL REDUCTION COP 50X150/50X 100, belongs to the category of cable duct components. This reducer is designed with a safety profile and snap-on cover and is intended to facilitate the transition between ducts of different sizes with a height of 50 mm. Its robust structure and precision construction ensure optimal adaptation from 150 mm to 100 mm. Made of 1.0 mm thick Sendzimir galvanised steel and 0.8 mm thick for the cover, it is also available in hot-dip galvanised, painted and stainless steel finishes. This product is an efficient and practical solution for those looking for a cable duct reducer that combines quality, functionality and ease of installation.
