

Left Reducer with Cover

The product with code T00751311, described as LEFT REDUCER COP 50X 100/50X 50, belongs to the category of cable tray components. This reducer is designed with a safety profile and snap-on cover and is intended to facilitate the transition between ducts of different sizes with a height of 50 mm, reducing the path on the left side. Its sturdy structure and precision construction ensure optimal adaptation from 100 mm to 50 mm. Made of 1.0 mm thick Sendzimir galvanised steel and 0.8 mm thick for the cover, it is also available in hot-dip galvanised, painted and stainless steel finishes. This product is an efficient and practical solution for those looking for a cable tray reducer that combines quality, functionality and ease of installation.
